- ▶ PBX Systems
- ▶ IP PBXs
- ▶ VoIP Gateways
- ▶ GSM Gateways
- ▶ IP Phones
- ▶ Voice Messaging
- ▶ Desktop
- ▶ Conference
- ▶ Video Conferencing
- ▶ Structured Cabling for
Copper and Fiber Optic

SECURITY

We are professionals in providing security solutions by advising and supplying comprehensive range of security solutions with the approach of delivering best customer inspired solutions.

Our range of solutions includes:

▶ **Closed Circuit Television (CCTV)**

▶ **Access Control**

- Biometric based solutions
- Facial recognition-based solutions
- Card/ID based solutions
- PIN/Keypad based solutions

▶ **Time Attendance**

- Biometric based solutions
- Facial recognition-based solutions
- Card/ID based solutions
- PIN/Keypad based solutions

▶ **Barriers:- Traffic Management Solutions**

- Sliding Gates
- Swing Gates
- Turnstiles
- Speed gates

THERMAL IMAGING

We offer innovative sensing solutions into daily life through thermal imaging, visible light imaging, video analytics, measurement and diagnostic.

We serve a number of applications in government & defence, industrial, wildlife and commercial markets. Our products help first responders and military personnel protect, save lives and promote efficiency.

ENERGY AND WATER SMART METERS

We offer wide range of metering products to cover all smart metering needs of water, electricity and gas including:

- ▶ Three phase electricity smart meters
- ▶ Single phase electricity smart meters
- ▶ Wet water smart meters
- ▶ Dry water smart meters
- ▶ Commercial gas smart meters
- ▶ Domestic gas smart meters
- ▶ Web-based AMI/AMR Systems

DATA CENTRE, DATA WAREHOUSE & CALL CENTRE

- ▶ Consultancy, design and implementation of corporate data centre, data warehouse & call centre.

TEST & MEASUREMENT EQUIPMENT

Our range of solutions include:

- Site Masters/Analyzers
- Spectrum/Protocol/Network/SDH Analyzers
- BER/E1/Cable Testers
- Earth Tester
- Power Solutions
 - Generators
 - Solar

MEDICAL DEVICES

We offer wide range of medical devices that makes a meaningful improvement to healthcare.

Our products cover a wide range including medical consumables, medical diagnostic equipment, maternity products, operating room products and household medical products.

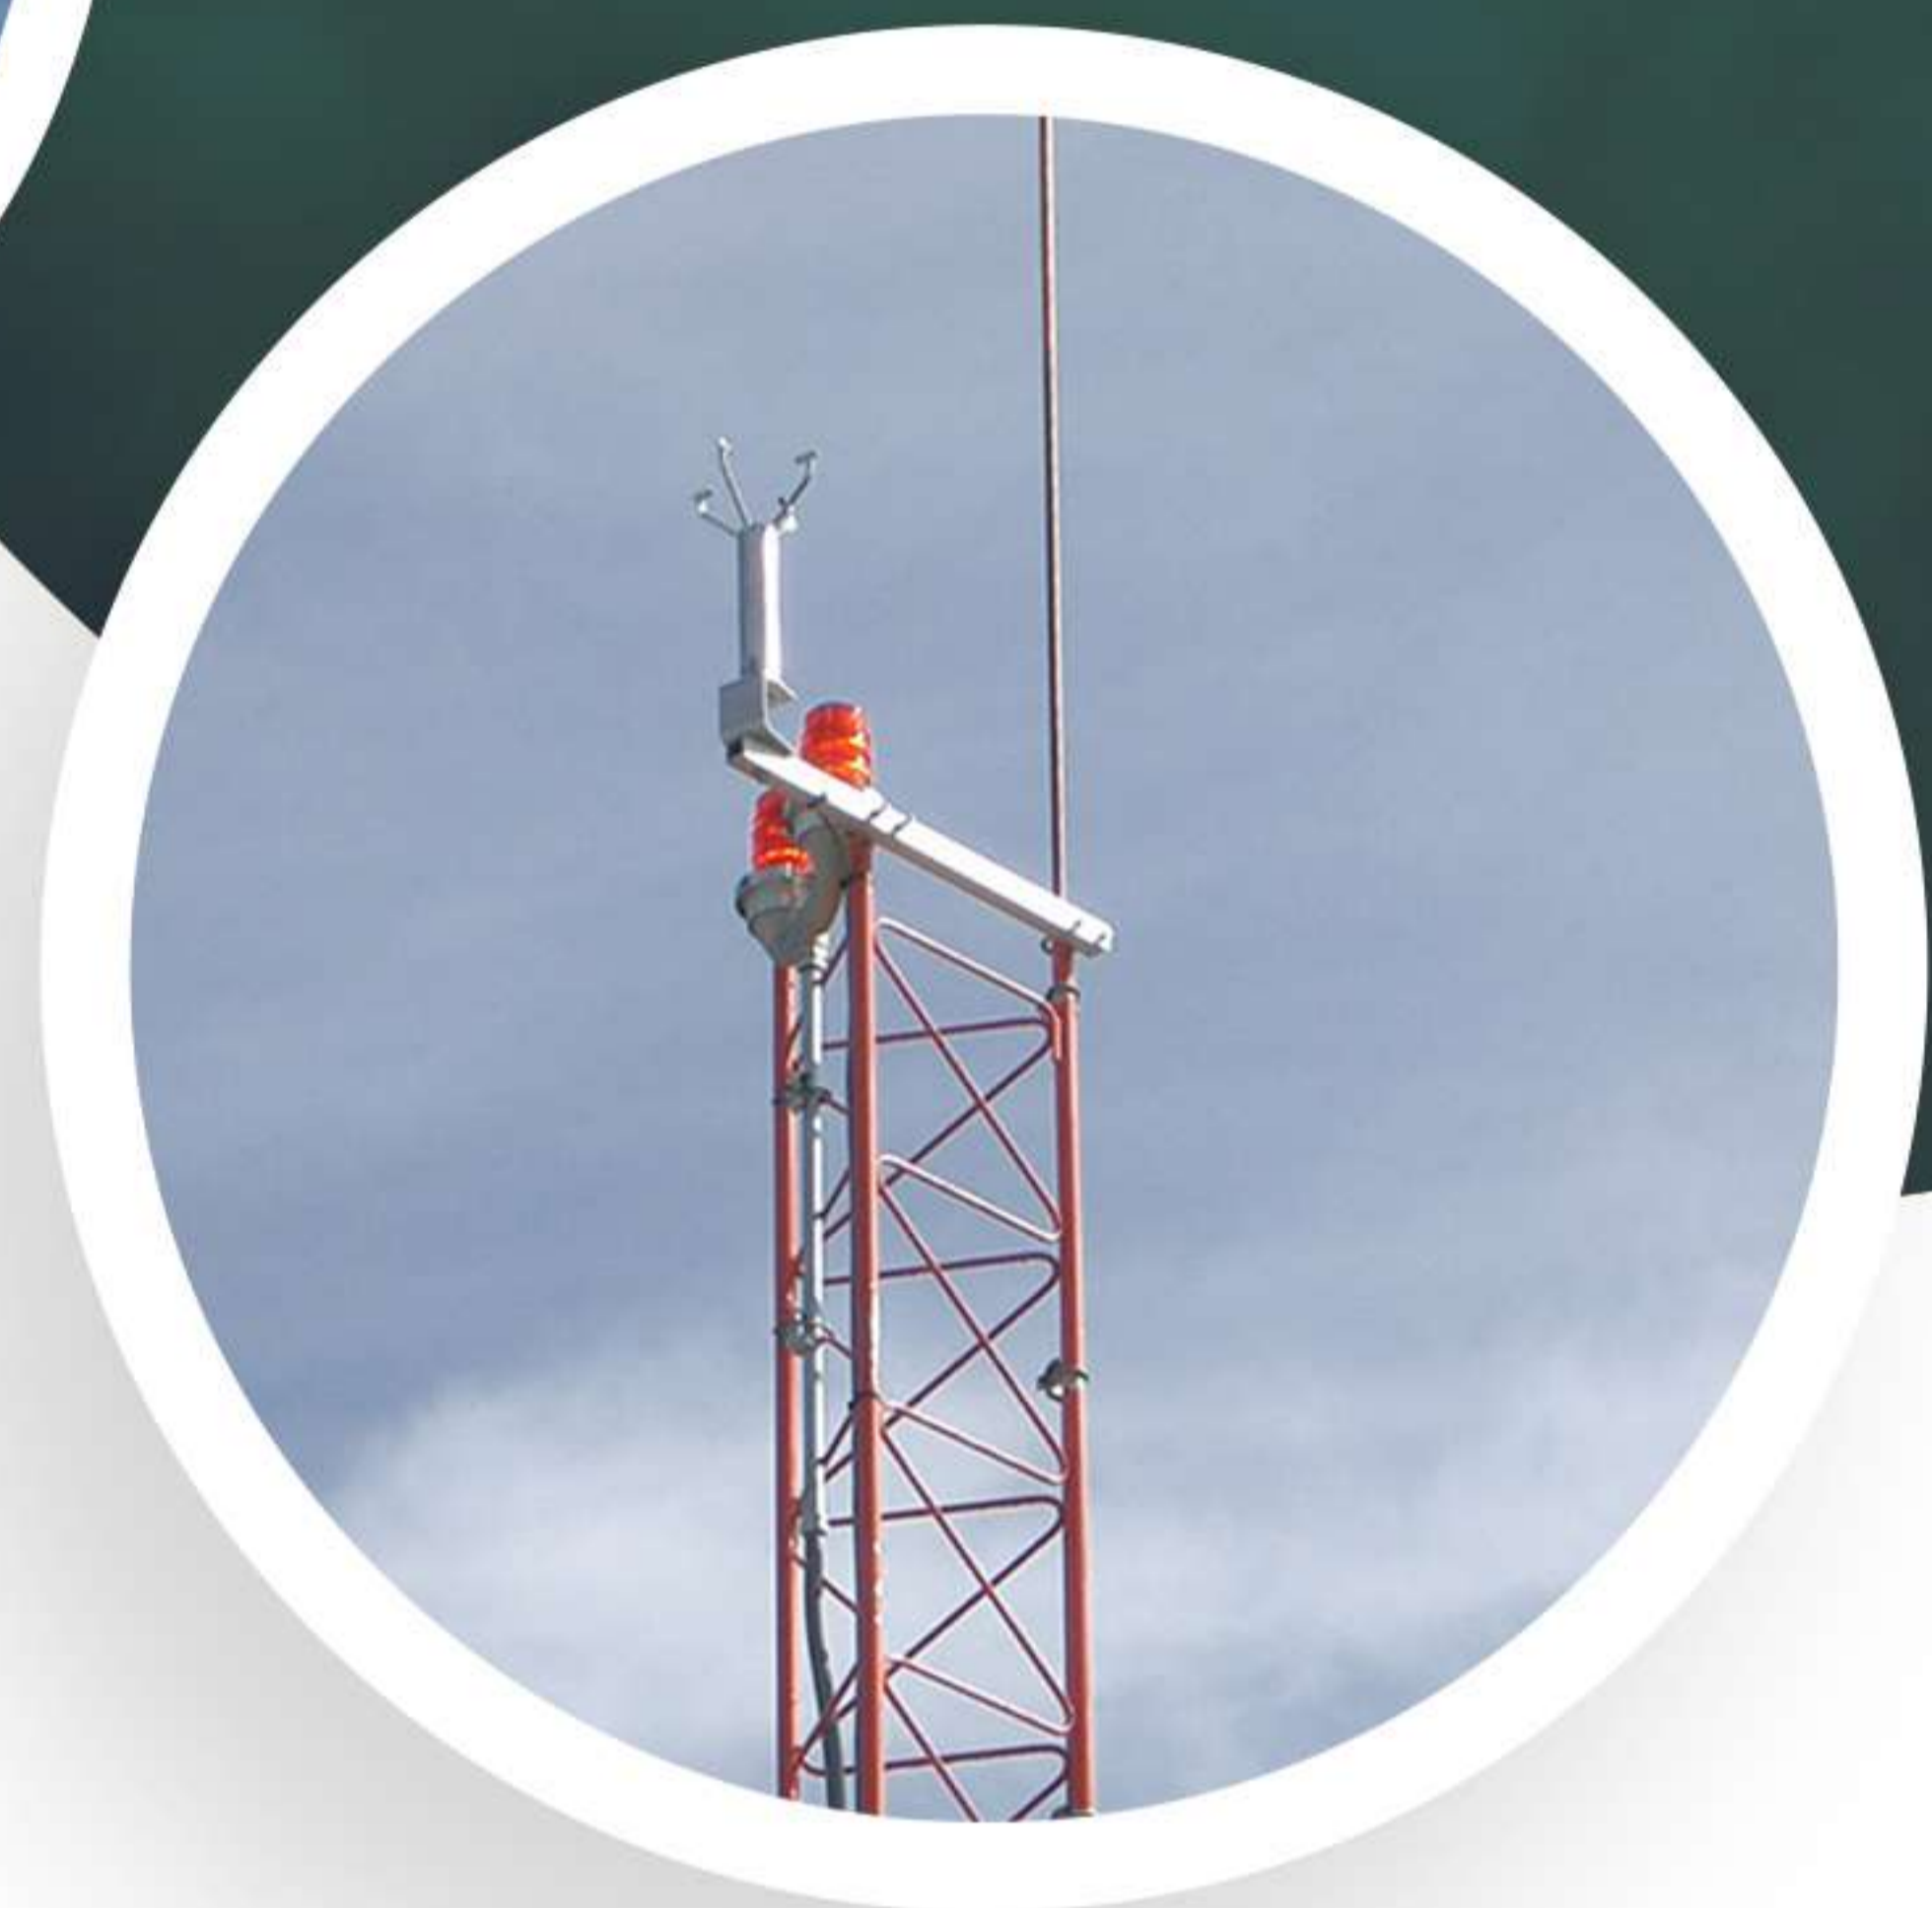

SMART SOLAR LIGHTNING

We offer wide range of smart solar lightning (IoT compliant) including:

- Solar lightning for walkways and parks
- Angular solar lightning
- Street type solar lightning
- Battery backup emergency lightning system

METEOROLOGICAL AND AVIATION

Solution provider specialized in meteorological, aviation and environmental monitoring.

Our services cover areas of:

- Aviation weather systems, air traffic control systems
- Environmental and atmospheric monitoring
- Calibration systems
- Data loggers, data acquisition systems
- Measurement and control products used worldwide in a variety of applications related to weather, water, energy, gas flux and turbulence, infrastructure, and soil
- Portable water testing equipment for testing portable water, groundwater through soil analysis, industrial effluent and wastewater.
